PROFESSIONAL SUMMARY

Junior Architect with hands-on experience in architectural planning, design, and site coordination. Proficient in CAD software and BIM tools for producing detailed, accurate drawings. Knowledgeable in building codes, zoning regulations, and quantity surveying. Demonstrated ability to collaborate in multidisciplinary teams, manage technical documentation, and deliver projects on schedule. Combines strong design sensibility with practical construction site exposure across residential, commercial, and large-scale public projects.

WORK EXPERIENCE

Junior Architect – Technical Engineer | *Concept NCE For Construction* | Zagazig, Alsharqia
| 07/2025 – Present

- Design and prepare shop drawings for interior design projects, ensuring compliance with project specifications and client requirements.
- Assist in quantity surveying tasks within the technical office, contributing to accurate material estimation and cost control.
- Coordinate with project teams to review and update construction documentation throughout the project lifecycle.

Architecture Student Trainee | *El-Mohandesoun El-Mottahedoun for General Contracting* |
6th of October, Giza | 09/2024 – 09/2024

- Supported the technical office with quantity surveying, cost estimation, and preparation of technical reports.
- Reviewed architectural drawings and assisted in organizing project documentation for record accuracy.
- Gained exposure to construction planning workflows and coordination between design and execution teams.

Architecture Student Trainee | *Hassan Allam Construction* | Ain Shams University Faculty
of Dentistry, Cairo | 08/2023 – 09/2023

- Trained on site finishing works including plastering, painting, flooring, and tiling across live construction environments.
- Reviewed drawings on-site and monitored execution quality against design specifications.
- Coordinated between site teams to ensure smooth workflow and timely resolution of technical discrepancies.

Architecture Student Trainee | *Orascom Construction* | New Administrative Capital
(Monorail Project) | 08/2022 – 08/2022

- Gained practical exposure to surveying, quality control, cost control, and planning on a large-scale infrastructure project.
- Participated in site visits and observed multidisciplinary coordination across engineering, procurement, and construction teams.

EDUCATION

Bachelor of Architecture Engineering — *Faculty of Engineering, Zagazig University* |
09/2020 – 06/2025 | GPA: Good (72.3%)

KEY PROJECTS

Technology Valley – Graduation Project

- Designed a large-scale industrial and innovation hub integrating assembly factories, research labs, and training facilities.
- Incorporated a medical hospitality hotel and sustainable masterplan elements, combining industrial, educational, and hospitality functions.

Revitalization of Al-Moez Street – Urban Design Project

- Developed an urban renewal proposal focusing on heritage preservation, pedestrian circulation, and landscape enhancement.
- Designed functional zones and public spaces to improve cultural value and user experience along a historic Cairo corridor.

Complex Mixed-Use Building – Zagazig City

- Produced architectural drawings and 3D visualizations for a mixed-use project encompassing residential, commercial, and office spaces.
- Applied sustainable design principles throughout planning and documentation phases.

Scandinavian Master Bedroom – Interior Design Project

- Created detailed 3D models and photorealistic renders using 3ds Max, V-Ray, and Photoshop for a modern Scandinavian-style interior.
- Applied realistic materials and lighting techniques to deliver a high-quality client-ready presentation.

Working Drawings for Primary School Project

- Prepared complete working and shop drawings using AutoCAD, covering plans, sections, elevations, and construction details.
- Ensured accuracy, clarity, and compliance with architectural design standards throughout documentation.

SKILLS

Technical Skills:

Autodesk Revit, AutoCAD, 3ds Max, V-Ray, Corona Renderer, Enscape, Adobe Photoshop, Microsoft Office (Word, PowerPoint, Excel)

Soft Skills:

Problem Solving, Analytical Thinking, Teamwork & Collaboration, Communication & Presentation, Time Management, Attention to Detail, Adaptability, Leadership & Coordination

CERTIFICATIONS & TRAINING

- Architectural 3D Max & V-Ray Diploma – Autodesk (12/2024)
- Working and Shop Drawing Diploma – Artecture by Eng. Ebtehal Hamed (07/2025 – Present)
- 3D Max & V-Ray – Innovation Academy by Eng. Mustafa Sakr (07/2024 – 06/2026)
- Revit & Enscape – Arvil Group by Eng. Mohamed Elheddek (03/2022 – 08/2022)

- AutoCAD – Arvil Group by Eng. Mohamed Elheddek (02/2022 – 03/2022)
- Technical Office Certificate – El-Mohandesoun El-Mottahedoun (09/2024)
- Completion Certificate – Hassan Allam Construction, Finishing Works Internship (09/2023)
- Completion Certificate – Orascom Construction, Monorail Project (08/2022)

VOLUNTEERING

Graphic Designer & Fundraising Team Leader | Life Makers, Zagazig | 06/2024 – Present

- Led a fundraising team to organize community campaigns, motivated members toward daily targets, and contributed to social impact initiatives.
- Designed visual content and media materials for the organization as part of the media team.
